Создание репозитория в GITHUB:

The screenshot shows the 'Create a new repository' form on GitHub. It includes fields for 'Owner' (slamina), 'Repository name' (bibli), and 'Description (optional)'. There are radio buttons for 'Public' (selected) and 'Private'. Below these are sections for 'Initialize this repository with:' (including 'Add a README file' and 'Add .gitignore'), 'Choose a license', and a note about creating a public repository in a personal account. A green 'Create repository' button is at the bottom right.
